- 15-16 Rock forward on left foot, hitch in place with right leg

REPEAT

To do this as a group dance, form two circles, one inside the other. The circle on the inside faces out and turns to the right. The circle on the outside faces in and goes to the left.

Change the first 8 counts to:

- 1-4 Vine right with a hitch and $\frac{1}{2}$ turn right
- 5-8 Vine left with a hitch and $\frac{1}{4}$ turn left

To do this as a couples dance, the man stands behind the lady, both facing in to the dance floor. Just drop right hands when you do the $\frac{1}{2}$ turn hitch right and bring left hands to the front.
