REPEAT

Our definition of SWIVET:

Move can be done either to the right or to the left. Move is done on the ball of one foot and the heel of the other. Right swivet: On the ball of left foot and heel of right foot, swivel left heel to the left and right toes to the right. Left swivet: On the ball of right foot and heel of left foot, swivel right heel to the right and left toes to the left. Swivel to about 45 degrees
