FUNKY HEEL DIGS & 2 BODY DROPS

- 1-2** Dig right heel across in front of left leg, hitch right knee while bending left supporting leg slightly

I teach this first of all by digging the right heel forward & slapping right knee when I bring the knee up. It feels better if you bend supporting leg each time you slap. I lose the slap when they get into the feel of it.

3-4(Angling body slightly to right diagonal) dig right heel to right side, hitch right knee while bending left supporting leg slightly

5(With body still angled to right) step right foot to right (shoulder width apart, weight on both feet)

- 6-7** Drop body slightly by bending both knees with 2 small quick jerks (like a bounce or sitting apprehensively on a cold seat)

- 8** Hold

HEEL / TOE SWIVELS (SINGLE, SINGLE, DOUBLE)

1-2(With feet apart & weight on ball of right and heel of left) twist right heel to right & left toes to left, return to center

3-4(With feet apart & weight on ball of left and heel of right) twist left heel to left & right toes to right, return to center

- 5-8** Repeat counts 1-2 of this section twice, ending with weight on left
